# Reasoning and Problem Solving Step 4: Read and Interpret Tables 

## National Curriculum Objectives:

Mathematics Year 5: (5S1) Complete, read and interpret information in tables, including timetables

## Differentiation:

Questions 1, 4 and 7 (Problem Solving)
Developing Create two questions about data in a table. Includes whole numbers up to 6 digits. Questions involve direct data retrieval.
Expected Create three questions about data in a table. Includes numbers up to 6 digits and some decimal numbers with one decimal place. Questions involve mostly direct data retrieval with some multi-step interpretation. Data given in same measurement. Greater Depth Create three questions about data in a table. Includes numbers up to 6 digits and some decimal numbers with one decimal place. Questions involve mostly direct data retrieval with some multi-step interpretation. Data given in different measurements.

Questions 2, 5 and 8 (Reasoning)
Developing Explain whether a comparison made about data in a table is correct. Includes whole numbers up to 6 digits. Questions involve direct data retrieval.
Expected Explain whether a comparison made about data in a table is correct. Includes numbers up to 6 digits, some numbers with one decimal place and some multi-step interpretation.
Greater Depth Explain whether a comparison made about data in a table is correct. Includes numbers up to 6 digits, some numbers with one decimal place and some multistep interpretation with some conversion of units.

Questions 3, 6 and 9 (Reasoning)
Developing Prove whether a conclusion about data in a chart is correct. Includes whole numbers up to 6 digits and direct data retrieval.
Expected Prove whether a conclusion about data in a chart is correct. Includes whole numbers up to 6 digits, some numbers with one decimal place and some multi-step interpretation.
Greater Depth Prove whether a conclusion about data in a chart is correct. Includes whole numbers up to 6 digits and some numbers with one decimal place. Multistep interpretation and conversion between km and m is required.

## Read and Interpret Tables

1a. The table below shows visitor numbers to three museums over three months.

|  | Science <br> Museum | History <br> Museum | Mining <br> Museum |
| :---: | :---: | :---: | :---: |
| July | 4,213 | 3,297 | 2,522 |
| August | 15,176 | 14,677 | 14,148 |
| September | 4,605 | 3,372 | 2,410 |

Create two questions about the data. Make sure you include the answers!

2a. The table below shows the monthly earnings ( $£$ ) of two people.

|  | Month 1 | Month 2 | Month 3 |
| :---: | :---: | :---: | :---: |
| Zoe | 1,466 | 1,674 | 1,211 |
| Kristoff | 1,454 | 1,675 | 1,201 |

In month 3, Zoe earned £9 more than Kristoff. Do you agree? Prove it.

3a. Penny records the number of cars that drive through different towns.

|  | Week 1 | Week 2 | Week 3 |
| :---: | :---: | :---: | :---: |
| Kington | 2,167 | 2,215 | 2,519 |
| Dunwich | 3,001 | 3,210 | 2,913 |
| Mossley | 1,865 | 1,748 | 2,109 |

## Penny

Do you agree with Penny? Why?

1b. The table below shows visitor numbers to three attractions over three months.

|  | Digger <br> World | Lulu and <br> Friends | Water <br> Mania |
| :---: | :---: | :---: | :---: |
| January | 1,790 | 1,291 | 2,076 |
| February | 15,121 | 14,999 | 16,712 |
| March | 2,101 | 1,923 | 1,022 |

Create two questions about the data. Make sure you include the answers!

2b. The table below shows the monthly earnings ( $£$ ) of two people.

|  | Month 1 | Month 2 | Month 3 |
| :---: | :---: | :---: | :---: |
| Tasneem | 2,184 | 2,213 | 2,192 |
| Orla | 2,084 | 2,344 | 2,103 |

In month 1, Orla earned $£ 1,000$ less than Tasneem. Do you agree? Prove it.

3b. Leo records how many people pass through two underground stations.

|  | Westminster | Covent Garden |
| :---: | :---: | :---: |
| Men | 2,899 | 2,788 |
| Women | 2,778 | 2,892 |
| Children | 4,254 | 4,875 |

Leo
Do you agree with Leo? Why?

## Read and Interpret Tables

## Read and Interpret Tables

4a. The table below shows the number of minutes spent on different activities by five children in a year.

|  | TV | Playing out | Eating |
| :---: | :---: | :---: | :---: |
| Amina | 61,213 | 11,744 | $29,866.5$ |
| Gerry | $19,677.5$ | 35,700 | 21,955 |
| Collette | 21,202 | $21,309.5$ | 18,232 |
| Sophie | 34,861 | 23,439 | $19,899.5$ |
| Finn | 21,345 | 44,232 | 24,431 |

Create three questions about the data. Make sure you include the answers!

5a. The table below shows the fastest speeds (km/h) recorded over three races.

|  | Race 1 | Race 2 | Race 3 |
| :---: | :---: | :---: | :---: |
| Louis <br> Hamilstone | 262.2 | 241.3 | 236.7 |
| Seb <br> Jettel | 261.5 | 215.5 | 231.1 |
| Juan <br> Shoemaker | 259.9 | 240.4 | 232.7 |

In race 2, the slowest speed was $241.3 \mathrm{~km} / \mathrm{h}$. Do you agree? Prove it.

4b. The table below shows the number of minutes spent on different activities by five children in a year.

|  | Washing | Homework | Sleeping |
| :---: | :---: | :---: | :---: |
| Maria | 7,300 | $5,850.5$ | 175,211 |
| William | 6,552 | 3,911 | 198,323 |
| Layla | $8,811.5$ | 8,322 | 182,544 |
| Saad | 7,321 | 10,543 | 201,423 |
| Ruka | 5,754 | $3,275.5$ | 218,231 |

Create three questions about the data. Make sure you include the answers!

5b. The table below shows the fastest speeds (km/h) recorded over three races.

|  | Race 1 | Race 2 | Race 3 |
| :---: | :---: | :---: | :---: |
| Zip <br> Johnson | 211.2 | 228.7 | 241.1 |
| Danny <br> Culsoft | 255.1 | 261.1 | 233.6 |
| Barry <br> Zoomer | 255.2 | 261.6 | 241.5 |

In race 3, the fastest speed was $241.1 \mathrm{~km} / \mathrm{h}$. Do you agree? Prove it.

6a. Holly records the number of vehicles crossing a bridge over three weeks.

|  | Week 1 | Week 2 | Week 3 |
| :---: | :---: | :---: | :---: |
| Cars | 139,866 | 144,565 | 122,522 |
| Bikes | 2,879 | 3,098 | 2,899 |
| Lorries | 32,144 | 26,876 | 34,223 |

Week 2 had the most traffic.

Holly
Do you agree with Holly? Why?

6b. Zain records how many people visit a museum over three years.

|  | Year 1 | Year 2 | Year 3 |
| :---: | :---: | :---: | :---: |
| Men | 154,610 | 159,175 | 203,366 |
| Women | 159,244 | 211,292 | 199,420 |
| Children | 221,854 | 256,129 | 283,321 |

Do you agree with Zain? Why?

## Read and Interpret Tables

7a. The table below shows data for different kinds of spiders.

|  | Lifespan <br> (years) | Weight <br> (grams) | Leg span <br> $(\mathrm{cm})$ |
| :---: | :---: | :---: | :---: |
| Giant <br> Huntsman | 2.5 | 175 | 30 |
| Black <br> Widow | 3 | 1 | 3.8 |
| Red-Knee <br> Tarantula | 25 | 16.5 | 12.7 |
| Wolf Spider | 1 | 1 | 3.1 |

Create three questions about the data.
Make sure you include the answers!

8a. The table below shows the time taken in seconds to run 200 m over three races.

|  | Race 1 | Race 2 | Race 3 |
| :---: | :---: | :---: | :---: |
| Usain <br> Bolt | 19.3 | 19.2 | 19.2 |
| Jesse <br> Owens | 23.4 | 22.3 | 20.7 |
| Michael <br> Johnson | 20.1 | 19.1 | 19.7 |

Over all three races, Usain Bolt was the only runner to finish in under 1 minute. Do you agree? Prove it.

9a. Keeley measures different routes in km to see how far away her friends live.

|  | Martha | Donovan | Lesley |
| :---: | :---: | :---: | :---: |
| Route 1 | 12.5 | 87.3 | 47 |
| Route 2 | 25 | 56 | 35 |
| Route 3 | 10 | 77.7 | 30.5 |

In metres, my friends are closer on route 3 compared to route 2.

## Keeley

Do you agree with Keeley? Why?

7b. The table below shows the data for different kinds of birds.

|  | Wingspan <br> $(\mathrm{m})$ | Weight <br> $(\mathrm{kg})$ | Dive Speed <br> $(\mathrm{km} / \mathrm{h})$ |
| :---: | :---: | :---: | :---: |
| Golden <br> Eagle | 2.3 | 6.3 | 241 |
| Peregrine <br> Falcon | 1.2 | 1.5 | 389 |
| Brown <br> Pelican | 1.2 | 5.5 | 48 |
| Red-throated <br> Diver | 1.1 | 1.6 | 78 |

Create three questions about the data. Make sure you include the answers!

8b. The table below shows the time taken in seconds for a car to reach 80 mph .

|  | $1^{\text {st }}$ attempt | $2^{\text {nd }}$ attempt | $3^{\text {rd }}$ attempt |
| :---: | :---: | :---: | :---: |
| Car 1 | 13.9 | 12.8 | 12.5 |
| Car 2 | 13.5 | 13.2 | 12.7 |
| Car 3 | 12.7 | 14.8 | 11.5 |

In total, there was only 0.4 seconds between the slowest and fastest cars. Do you agree? Prove it.

9b. Stan measures how far away different shops are in m from his friends' houses.

|  | Tristan | Lucy | Anthony |
| :---: | :---: | :---: | :---: |
| Cut Costs | 2,800 | 7,600 | 15,600 |
| Pet Power | 1,800 | 10,100 | 11,100 |
| Cars 4 You | 900 | 7,400 | 5,500 |

In km, Pet Power is closer to all of my friends than Cut Costs.
Stan
Do you agree with Stan? Why?

# Reasoning and Problem Solving Read and Interpret Tables 

## Reasoning and Problem Solving Read and Interpret Tables

## Developing

1a. Various answers, for example: True or false? The Science museum had more visitors over three months than the History museum. True, it had 2,648 more visitors.
2a. No, Zoe earned $£ 10$ more than Kristoff (£1,211-£1,201 = £10).
3a. Penny is incorrect. Dunwich had the most traffic in week 3 with 2,913 cars.

## Expected

4a. Various answers, for example: True or false? Altogether, Finn spends 65,577 minutes watching TV and playing out. True, $21,345+44,232=65,577$.
5 a . No, $241.3 \mathrm{~km} / \mathrm{h}$ was the fastest speed in race 2.
6a. Holly is incorrect. Week 1 had the most traffic with 174,899 vehicles, compared with 174,539 in Week 2.

## Greater Depth

7a. Various answers, for example: True or false? The black widow is the smallest spider on the table. False, the black widow is one of the smallest in weight, but its leg span is longer than that of the wolf spider.
8a. No, Michael Johnson also finished in under a minute ( 58.9 seconds).
9a. Keeley is incorrect because route 2 has a total distance of $116,000 \mathrm{~m}$ and route 3 has a total distance of $118,200 \mathrm{~km}$.

## Developing

1b. Various answers, for example: True or false? Digger World had 2,086 more visitors than Water Mania. False, Digger World had 798 fewer visitors. 2b. No, Orla earned $£ 100$ less than Tasneem (£2,184-£2,084 = £100). 3b. Leo is incorrect. 2,788 men passed through Covent Garden, but 2,778 women passed through Westminster.

## Expected

4b. Various answers, for example:
True or false? Saad spends 27,212 more minutes sleeping than Maria. False, he spends 26,212 more minutes sleeping than Maria.
5b. No, the fastest speed was $241.5 \mathrm{~km} / \mathrm{h}$ in race 3.
6b. Zain is correct. 517,151 men visited the museum, but there were 569,956 visits from women.

## Greater Depth

7b. Various answers, for example: True or false? The Peregrine Falcon is the largest and fastest bird on the table. False, although the Peregrine Falcon is the fastest, the Golden Eagle is larger in wingspan and weight.
8b. Yes, Car 3's total was 39 seconds and Car 2's total was 39.4 seconds. There is 0.4 seconds between their total speeds.
9b. Stan is incorrect because Cut Costs has a total distance 26 km which is more than the distance to Pet Power of 23 km .
